

## HOW YOU CAN USE OZMOZ B2B WEBSITE?

1) Open the website, by clicking here: <https://www.ozmoz.com.tr/b2b-2/>

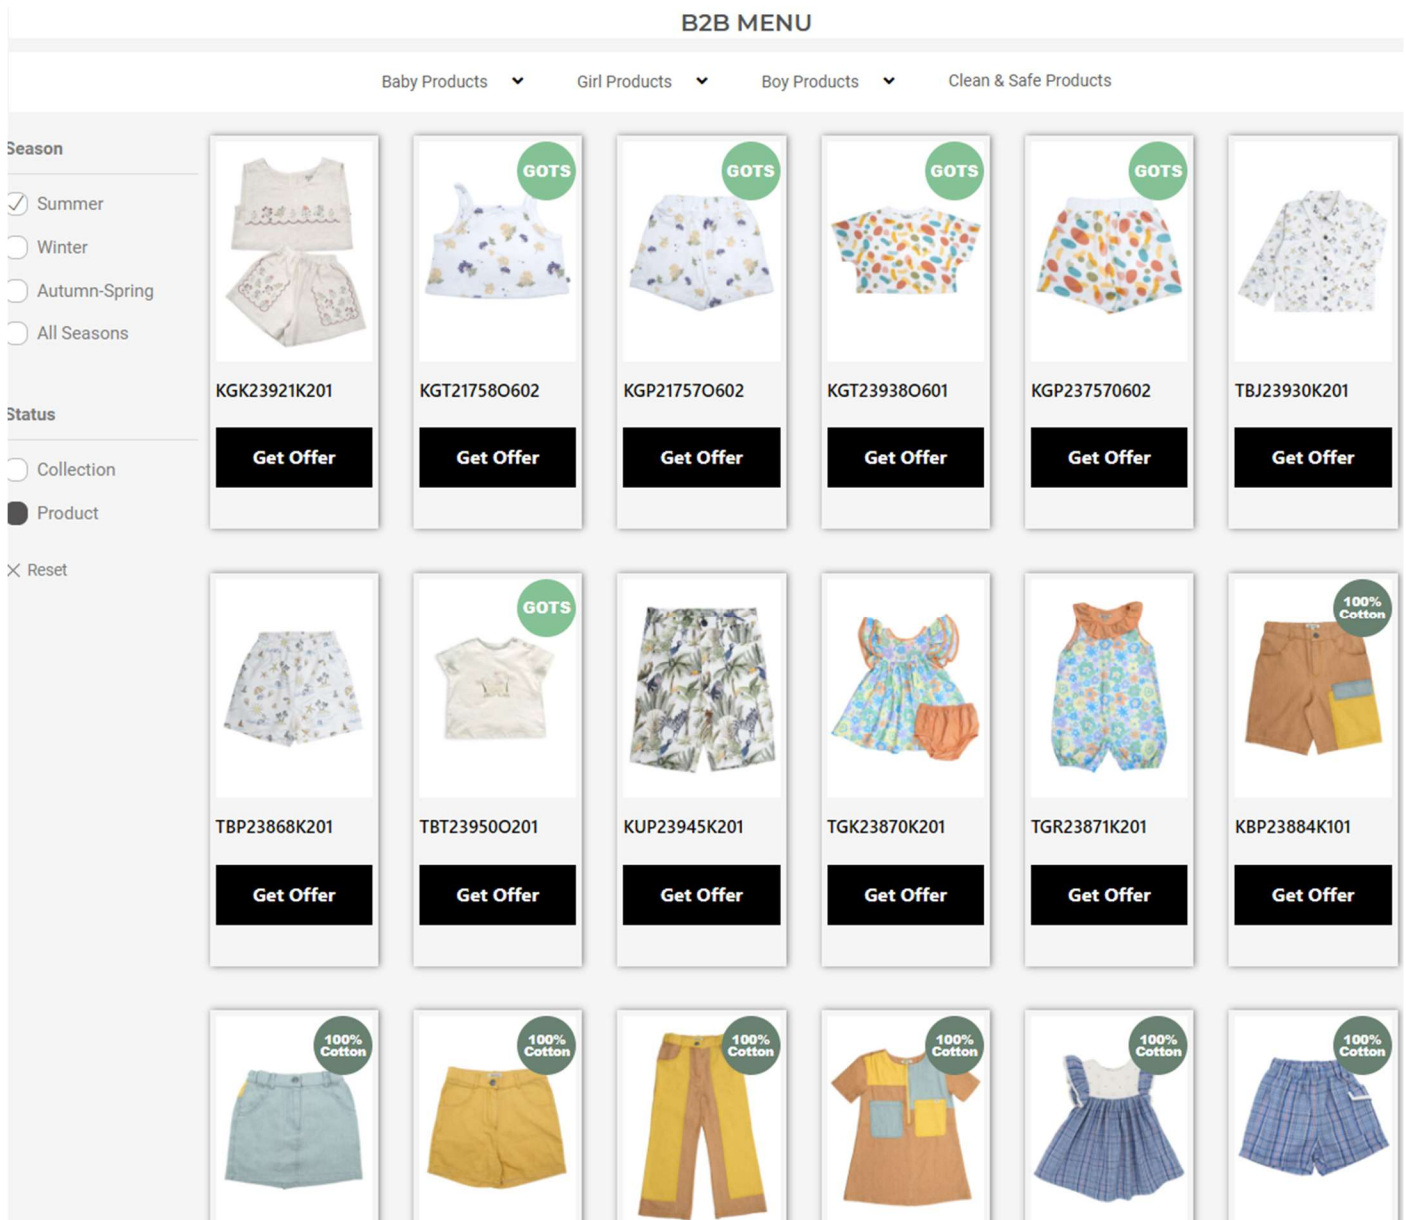

2) When the main page opened, you'll see the selection menus and the Product thumbnails, as below.

The screenshot displays the Ozmoz B2B website interface. At the top, the Ozmoz logo is on the left, and navigation links for Home, About us, Products, Catalog, Organic Production, B2B, and Contact us are in the center. A language dropdown menu is set to English, and a shopping cart icon with '30' items is on the right. Below the navigation is a large banner image of a clothing store interior with the text 'Welcome to Ozmoz B2B'. A callout box points to the cart icon, labeled 'Cart/Inquiry button'. Below the banner is the 'B2B MENU' section, which includes a 'B2B Menu' callout box and a horizontal navigation bar with dropdown menus for 'Baby Products', 'Girl Products', 'Boy Products', and 'Clean & Safe Products'. To the left of the product grid is a filter sidebar with 'Season/Status selection' and 'Product Thumbnails' callout boxes. The sidebar has sections for 'Season' (Summer, Winter, Autumn-Spring, All Seasons) and 'Status' (Collection, Product), with a 'Reset' button. The main content area shows 'Showing 1-300 of 948 results' and a grid of six product thumbnails. Each thumbnail includes a product image, a product ID (e.g., KGT24960K302), and a 'Get Offer' button. A purple oval highlights the filter sidebar and the product grid. At the bottom of the grid, 'GOTS' certification logos are visible.

B2B Menus, has their own drop-down selections. So you may narrow your search range from there, too.

This close-up shows the dropdown menu for 'Girl Product' under the 'Baby Products' category. The menu lists various product categories: Top, Bottom, Body, Rompers, Suit, Dress, Denim, Swimsuit, and Accessory. The 'Top' category is currently selected. The background shows a partial view of the product grid with 'Get Offer' buttons.

3) After you make the selection, the system will show you relevant styles' thumbnails to navigate.

Note: On the left side menu, **PRODUCT** and **COLLECTION** options exist under Status.

If a style in COLLECTION status, its mean it has been designed and sample has made, for exhibition purposes. Of course you may ask questions or enquiries about it, but its production stage can be a bit longer.

If it is in PRODUCT status, it has been manufactured and in stock. According to your order volume can ship directly. If request amount is bigger than stock, then we inform about its refill period, too.

Here above, we were select "Summer" styles and "Product" as an example, so you may directly order.

4) Then, you can click on any thumbnail, and see/review its big picture, and style, fabric, size, sewing details in product detail page.
